Message from the Minister of Immigration and Chief Executive Officer

We are pleased to present a Statement of Mandate for the Nova Scotia Office of Immigration for 2015-2016 that will make direct contributions to government's priorities for the coming year.

Immigration continues to be a key priority for addressing Nova Scotia's acute demographic challenge. This includes ensuring that the Province has a robust labour market and that the immigration system is aligned to attract and retain immigrants who wish to live, work, and stay in Nova Scotia. In 2015-2016, we look forward to advancing a number of key initiatives.

It is our role to ensure that the number of new immigrants to our province continues to grow and over the past year we have made significant progress. The Nova Scotia Office of Immigration nominated 717 individuals for permanent residency and over 2,600 new people decided to make Nova Scotia home. This year we hope to nominate 1,050 individuals, the highest number of nominations ever. We will continue to work with the federal government and other partners to advocate for further increases in our provincial nomination allocations and to maximize all immigration pathways to Nova Scotia making our province the designation of choice for immigrants.

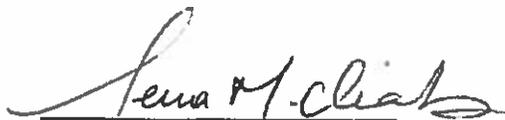

Our efforts in immigration require an active and engaged business community. Employers have a fundamental role to play to create growth in the economy that will attract people from around the world to our province. We will continue our direct engagement with employers and business leaders to build a shared understanding of immigration as a tool to meet labour market needs. We will continue to promote Nova Scotia as an immigration destination of choice – ensuring our recruitment activities are aligned with the economic needs of the province and the labour needs of business.

In addition to assisting employers who would welcome newcomers to fill vacant jobs, a new business immigration program will be launched in 2015-2016 to attract individuals who wish to acquire, start or purchase and actively manage a business in Nova Scotia. The proposed program will build on Canadian and international best practices in business immigration and be designed to encourage retention and support economic development and job creation in the province.

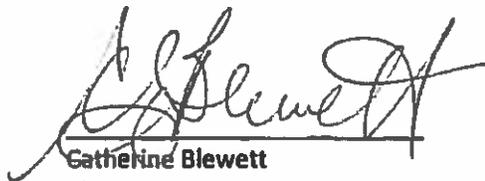

We will also continue to support an integrated approach to settlement services, allowing us to maximize settlement programming and resources, strengthen welcoming communities and ensure a delivery of an array of programs such as settlement orientation, language training, employment, and entrepreneurship.

In 2015-2016, the Nova Scotia Office of Immigration, will launch an electronic processing system for the Nominee Program to replace the current paper-based application process. Our e-application process will utilize and build on existing government IT infrastructure and resources. This will allow for efficiencies in processing and enhance services and will position Nova Scotia for growth.

On behalf of all the staff at the Nova Scotia Office of Immigration, we look forward to working with you all in 2015-2016, as we build a Nova Scotia into a diverse, welcoming province for immigrants, grow our economy and increase our capacity to remain competitive in today's global landscape.

Integration and Retention

Outcome	Measure	Base Year	Annual Target: 2015	Trends - Subsequent year data	Strategic Actions
Nova Scotia's immigration policies and settlement activities support immigrants and their families to successfully settle and integrate in their new community.	Percentage of all immigrants arriving in Nova Scotia in a five-year period remaining in the sixth year. This measure was originally created using a baseline of 37% from the 2001 national census. The figure rose to 63% by the 2006 census. However, the discontinuation of the long-form census in 2011 means it is no longer possible to track retention with census data. Similar calculations can be done using tax filer data available in the Longitudinal Immigration Database (IMDB)	2008 IMDB: 69%	70% or better retention rate.	2012 ² - 71%	Focus attracting immigrants with job offers or with skills to acquire a job in reasonable amount of time or match immigrant skills to labour market needs. Fund an integrated approach to settlement services to maximize settlement programming and resources to ensure successful settlement of immigrants, including to the Francophone community. Enhance welcoming communities to make Nova Scotia an open province.

² There is a two-year time lag in the availability of data from the IMDB, so the latest available data is for the 2012 tax year.
